1. During the period from 4 to 9 October 1952, troops arrived in the area of Dessau by rail and road. Troops were later seen assembled on both sides of the Elbe River between Dessau and Aken as far as Gerbst on the north and as far as Ranguhn and Koethen on the south. Source believed that they had assembled for maneuvers. Three bridges were built between the Elbe River markers Nos 268 and 276 during the night on 11 October. Two bridges had a load capacity up to 60 tons. The third was a wooden emergency bridge. Source thought that the maneuver headquarters was located in Rosslau.<sup>1</sup>

- 25X1 1. [ ] Comment. These fall exercises of the Eighth Gds Army which were held in the Dessau area with elements of the IV Arty Corps were previously indicated in a compilation from the Erfurt transportation control headquarters by the trains shipped there and by reports of numerous other sources.  
The bridges were built in the Elbe River area between Aken and Rietzmeck and were known from previous reports.
- 25X1 2. [ ] Comment. These movements of units of the 9th Meck Div southwest of the Weisswasser training grounds were probably made in conjunction with the last exercises of this division held prior to its return to its military position and after 4 October. [ ]
- 25X1 3. [ ] Comment. The first unloading of heavy guns in Gera was observed by this and another source on 1 and 2 October. Records of the Erfurt transportation control headquarters indicated that three trains went from Ohrdruf to Gera during the period from 30 September to 2 October and, on 6 and 7 October, four trains of the unidentified artillery brigade of the XXVIII Gds Meck Rifle Corps from Ohrdruf to the training area north of Dessau. [ ]

- 25X1 5. [ ]
- 25X1 6. [ ] Comment. [ ] It is believed, however, that the units reported were units of the Eighth Gds Meck Div which returned to their posts. [ ]
